

Eskimo-3 range by Nutri Advanced

# Which product is right for me?

Eskimo®-3	Eskimo®-3 Extra	Eskimo®-3 Brainsharp
 <p>Eskimo®-3 is a pure and stable omega-3 fish oil providing high levels of fatty acids EPA and DHA in their naturally present concentrations.</p>	 <p>Eskimo®-3 Extra has the same benefits as the original Eskimo®-3 products but in a stronger form. This high strength formula allows for greater dosages with fewer capsules.</p>	 <p>Eskimo®-3 Brainsharp combines original Eskimo®-3 with ingredients including CoQ10 and GLA to optimise brain structure and brain function.</p>
<p><b>3 capsules between 1 and 3 times daily or 1 teaspoon (5ml) per day</b></p> <p>Available in capsule form or lime flavoured liquid</p>	<p><b>1-2 capsules daily</b></p> <p>Available in capsule form</p>	<p><b>2 capsules twice daily or 1 teaspoon (5ml) per day</b></p> <p>Available in capsule form or lemon flavoured liquid</p>
Eskimo® Advanced EPA	Eskimo®-3 Bright Kids™	Eskimo®-3 Little Cubs
 <p>Eskimo® Advanced EPA is a high EPA omega-3 fish oil that may help support a balanced mood.</p>	 <p>We know that it can be difficult to get our kids to eat enough fish which is why we designed a fuss-free alternative. Designed specifically for children, Bright Kids™ contains the right amount of DHA to support healthy brain function, tastes great and is easy to take.</p>	 <p>Specifically formulated to provide key nutrients that are important for 1-12 year olds, Eskimo®-3 Little Cubs combines an optimal balance of fatty acids including omega-3, 6 and 9 together with vitamins D and E.</p>
<p><b>1-3 capsules daily</b></p> <p>Available in capsule form</p>	<p><b>1 chewable jelly splat daily</b></p> <p>Available in orange flavoured jelly splats (chewable tablets)</p>	<p><b>1 teaspoon (5ml) per day</b></p> <p>Available in a tutti frutti or orange flavoured liquid</p>

## Why choose Nutri Advanced Eskimo®-3 Fish Oil?

### Purity ✓

Eskimo®-3 is purified in a process where pressing, centrifugation and molecular distillation all take place in accordance with GMP and pharmaceutical standards. State-of-the-art technology is used to ensure Eskimo®-3 products contain no environmental toxins or residue from the manufacturing process.

### Stability ✓

Eskimo®-3 oils are enriched with vitamin E and Pufanox®, a proprietary antioxidant blend, to ensure long term stability. This stability ensures there is no fishy aftertaste, something that is associated with fish oils that have gone off.

### Sustainability ✓

Eskimo®-3 oil is of the highest quality from fully traceable sources. The fish for Eskimo®-3 are provided by specialist fisheries that can be traced back to the individual fishing vessel and even the individual taking care of the fish. This traceability has resulted in the Eskimo®-3 range being awarded a 'Friend of The Sea' certificate.

- ✓ Provides the essential omega-3 fatty acids EPA and DHA which are often lacking in those who rarely eat fish
- ✓ Supports healthy brain function
- ✓ Supports cardiovascular health
- ✓ Supports normal vision
